

Topic

Three versus one + three versus two

Area: 30x25

Organization:

goals at each end are defended by 1 player in the shooting zone and 1 midfielder in the center of the field. Subsequently the restrictions on the defenders positions are lifted.

- How many goals can the attackers score in sequence against 2 pairs of defenders without losing possession or allowing the ball to go out of play?
- An attack ends when a goal is scored, or when the ball goes out of play, or when a defender wins the ball and passes it to the defender or to one of the other pair of defenders.

Objective:

- Changing direction
- Dribbling
- Dummying
